

Patient friends and family feedback for July 2026

Q1 Thinking about the service we provide, overall how was your experience of our service?

Answered: 237 Skipped: 2

These responses were collected from the friends and family test results and from feedback forms provided in the surgery and after appointments. All patients receive the friends and family survey via text message after their appointment at the surgery.

During July, 164 of our patients returning the survey felt our service was very good with a further 51 rating it as good.

We also had some positive feedback regarding eConsult with patients advising they were extremely satisfied with the service as it was very efficient, and straightforward to complete.
